

HE-6R

REMOTE HYDRA-EXTRACTOR®

The **Somat HE-6R Hydra-Extractor®** is one part of a Remote Pulping System. Standard features include a 2 HP drive motor and return pump. The main benefits of a Somat Remote Pulping System are **Reduction** and **Transportation**. A remote system connects food prep and scrapping areas together through a series of piping and transports food service waste to a remote extractor. The extractor removes the solids (pulp) and recirculates the water back to the grinding tanks. The pulping process provides an 8 to 1 volume reduction (up to 85%.) The pulp is fed into a Somat Dehydrator for additional reduction or directly into a dumpster. A remote pulping system eliminates the need for trash cans, liners and laborers to “take out the trash”.

CAPACITY

1600 pounds per hour of foodservice waste mix, consisting of food scraps, plastics, milk cartons, paper, aluminum foil and cardboard.

TECHNICAL SPECIFICATIONS

Hydra-Extractor:

- 2 HP TEFC drive motor
- 20:1 gear reducer
- 3 HP TEFC return pump
- Stainless 1.5" Square tube frame
- Chemical additive pump
- 6" stainless steel auger with nylon brush edge
- Reinforced stainless steel screens
- Automatic shutdown timer
- Automatic rinse system
- 17" Discharge chute with safety switch

Valve Package:

- All valves required for proper operation (automatic rinse system).

Som-A-Trol Electrical Control Panel:

- UL approved stainless steel NEMA 4 panel with all components pre-wired to internal terminal strip. Push Button control station on panel door (remote control station optional). Panel to be wall mounted with field connection to pulper mounted junction box.

OPTIONS

- Extended discharge chute
- Hinged chute
- 5HP TEFC return pump
- Extended stand
- Pulp level detector

Special Requirements:

- Pulp Screw Conveyor and controls. Required to convey pulp from discharge chute to haul-away container when location of container does not permit gravity discharge.

Voltage Options:

- 208/60/3
- 230/60/3
- 460/60/3
- International options available, consult factory

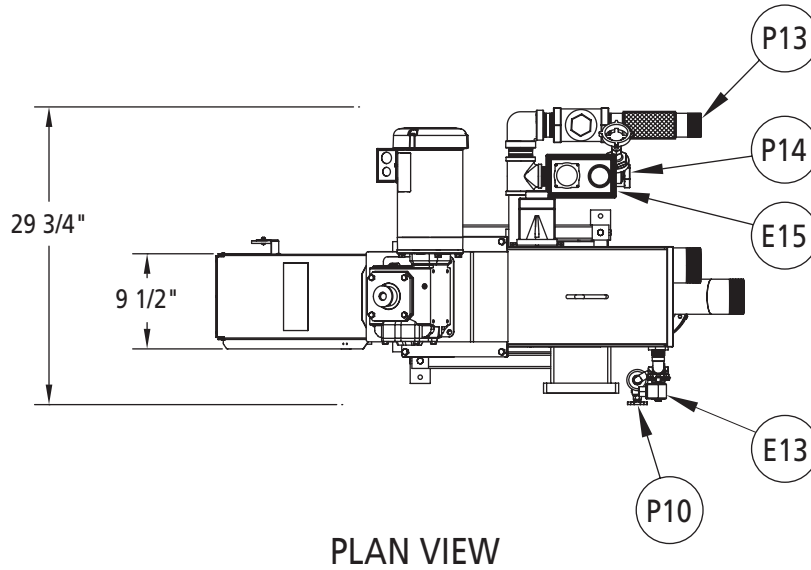

FINISH

All exterior surfaces are stainless steel.
